## **Net Metering Excess kWh Credit Transfer Request**

When electricity generated by the net metering facility is fed back to the cooperative and exceeds the electricity supplied by the cooperative during the billing period, the member will receive a kWh credit for the accumulated net excess kWh.

Monthly excess kWh credits may be transferred to additional accounts in the same name of the member who owns the net metering facility. These additional accounts will only receive enough of the excess kWh's to zero the billed kWh's used. These additional accounts will not be allowed to carry the excess credit. Any remaining excess kWh's will remain on the original net metering account.

If you would like to transfer your excess kWh's to another of your electric accounts, please complete the information below. You must give at least 30 days' notice to the cooperative and you can only make changes to the additional accounts once per year.

Member's Signature: \_\_\_\_\_ Date: \_\_\_\_\_

Member Name on Account: \_\_\_\_\_

Net Metering Facility Account#: \_\_\_\_\_

Additional Accounts to receive credit kWh (provided in rank order):

1. \_\_\_\_\_
2. \_\_\_\_\_
